

# WODE and WODL Projects

Kazakhstan Stomatological Association

# WODE(World Online Dental Education) WODL (World Online Dental Library)

These are revolutionary new technologies of global continuing dental education, which will open up new learning opportunities in various fields of dentistry worldwide

To increase the possibility of continuing dental education throughout the world

To improve interaction and collaboration of FDI with NDAs

To improve the quality of dental services and, therefore, to improve the oral health of the world entire population

To improve interaction and collaboration of NDAs with the members of their associations

To allow the professional lecturers to share their knowledge with all world dental community for greater rewards than it was whenever before

Increase the role and authority of FDI and NDAs for dental practitioners

# Essence of WODE Project

FDI invites professional lectures

FDI sends to the NDAs webinar information

NDAs send the information to dentists

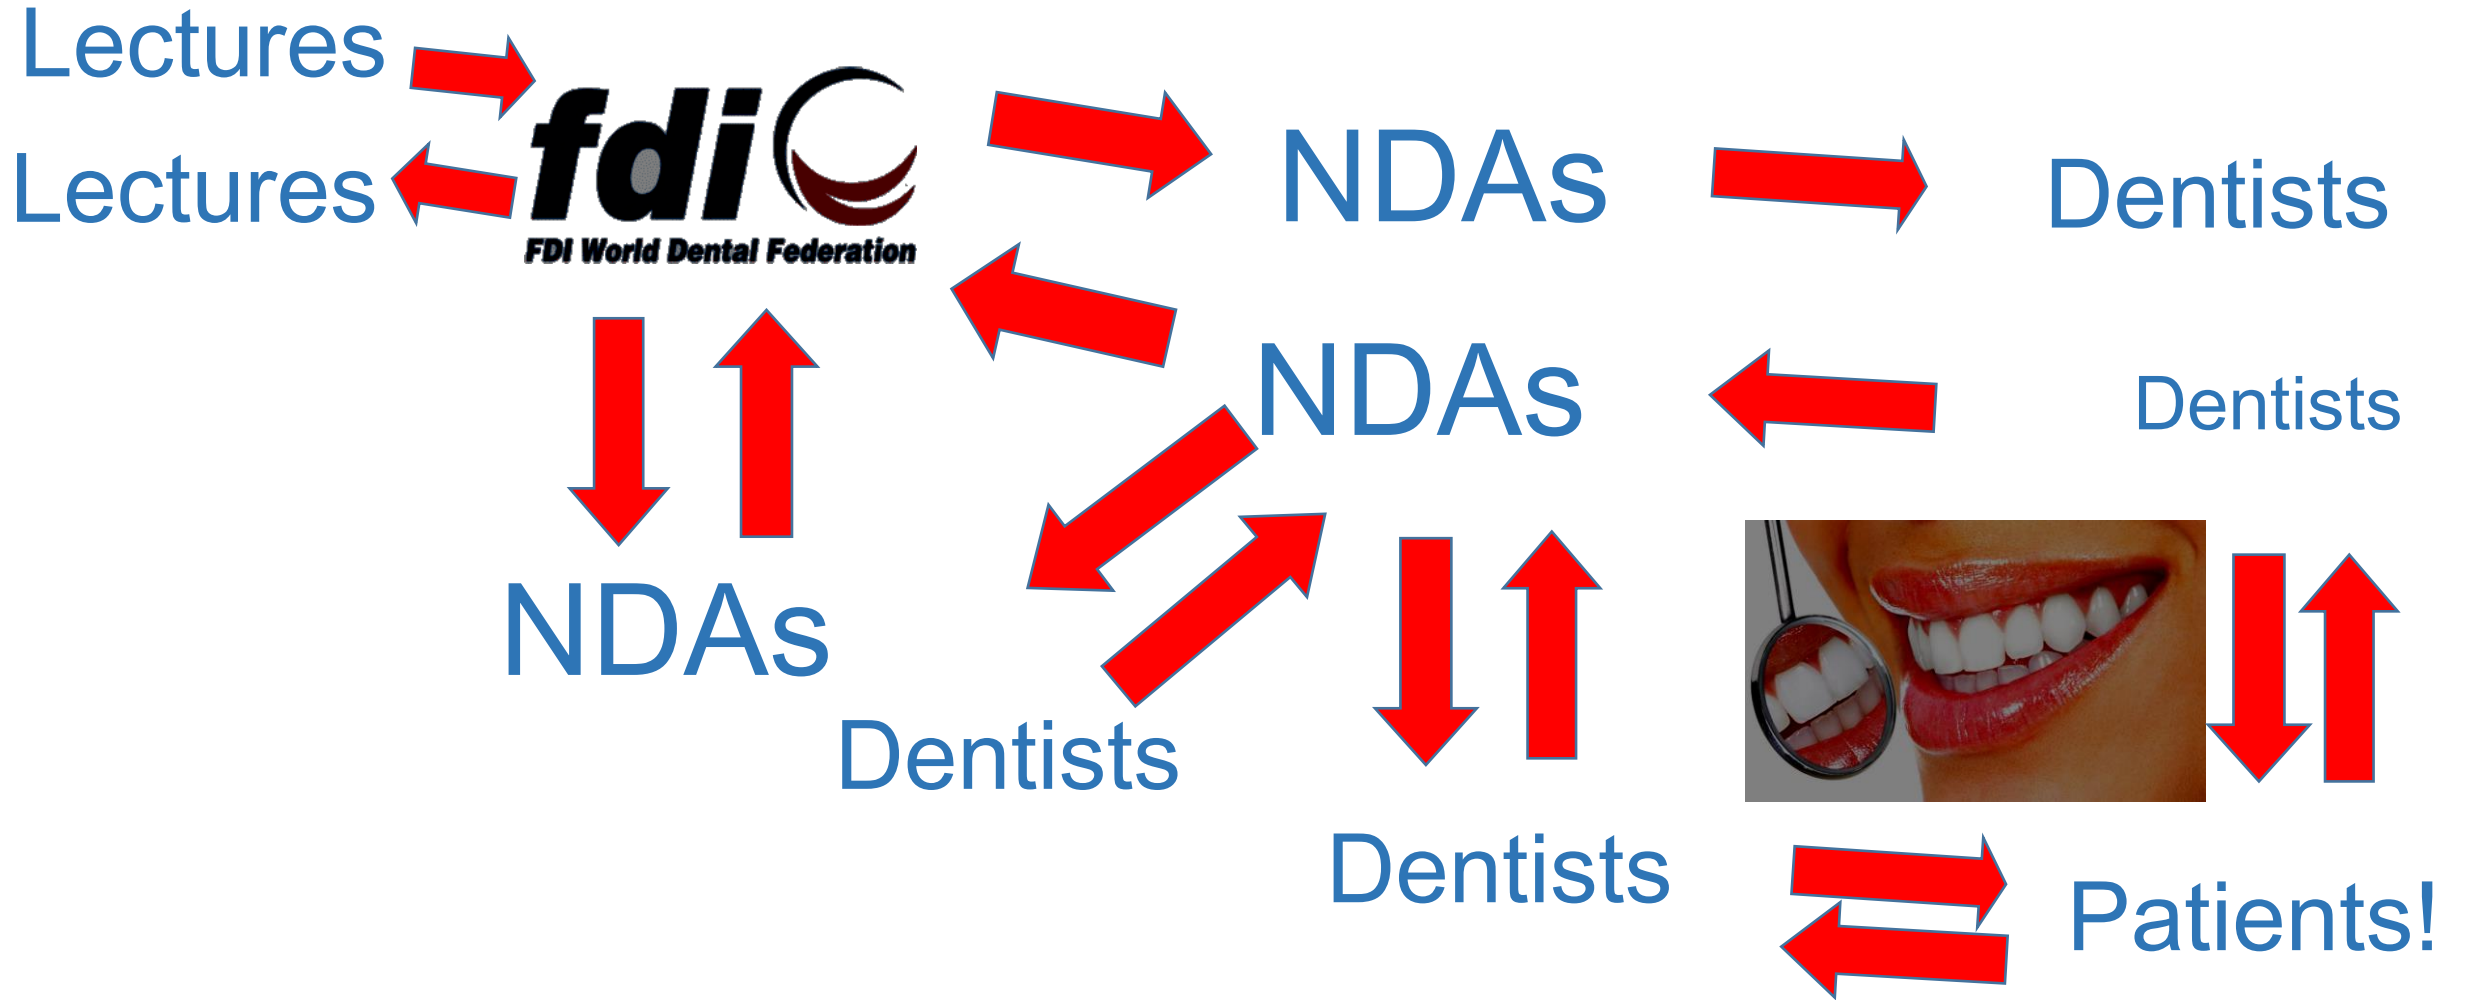

Dentists pay for the webinar to NDAs

NDAs buy personal links for the webinar from FDI

NDAs send personal links to dentists, who have paid

# Essence of WODE Project

# is responsible for:

- broadcast quality of webinars
- the quality of professional simultaneous interpretation into the most common languages (English, Chinese, Spanish, French, German, Russian, etc.)
- selection of professionally trained lecturers, experts with international recognition and prestige
- quality control of reported information
- providing feedback, incorporation of wishes, comments and suggestions from the webinars audience
- informing the lecturers about received feedback from dentists for continuous growth of the education quality.

# Honorarium and Certificates

FDI pays a certain percentage from each sold links to the lecturer of webinar.

FDI sends to NDAs the electronic personal certificates of their dentists who have been trained in the webinar.
