

Regional European Organisation of the FDI

National Report

Country: Slovenia

Association: Slovenian Dental Association

Venue: Geneva

Year: 2017

Please classify your national report by following subjects:

Changes

in the association and its organisation: No changes.

Trends and developments:

- in professional politics: No changes.*
- in health and social politics: A new law on health care system is still being expected. We do not yet know what might be the impact of the new law in the dentistry insurance system;*
- in educational politics: Continuing education is becoming important and mandatory. The SDA organizes at least one general annually (from practice to practice) and several (5-6) specialised courses for postgraduates. Records of participation of each dentist is accurately kept in the registry of the Medical Chamber and used for the renewal of their licenses;*
- in the insurance system (incl. the public health insurance and private insurance schemes): nothing new at the moment but the changes are expected for 2018;*
- in dental care for persons applying for asylum or refugees: No changes.*

Changes in fees: No changes.

*Information regarding promotion of the World Oral Health Day:
The World Oral Health Day is publicly celebrated each year but we do not use this year's Live Mouth Smart slogan, because it is very difficult to translate it into our language.*
