# ERO WG Integration

## Resolution from ERO WG Integration

### Statement:

In order to facilitate to reach the goal of Optimal Oral Health for all people, the ERO-FDI WG “Integration” recommend strongly to the Minister of Health to work in close relationship with the National Dental Associations.

National Dental Associations should become involved in all political and legislative processes and decisions regarding matters of oral health and oral health care.

National Dental Associations should offer advice and support in relation to the planning of Oral health and related measures.

The partnership, Ministry of Health and National Dental Association will be beneficial for the patients and the nation to reach Optimal Oral Health.

Moscow 15th November 2012

# ERO WG Integration

**April 2016, Baku**

Regarding collaboration between **ADEE and ERO** and ERO WG Integration activity, we would like to include also integration work deals with basic education between Universities of ERO countries. The purpose of the activity is development of dental education in Eastern European countries of ERO. We could start with one pilot project for one University of Eastern European country, and for the first to start to compare dental education between this University and one of the best University of 28 EU countries due to new EU directives of European standards of Dental Education.

This activity is appropriated to the new approaches to WG Integration activity on the base of country needs and could be apply in the same time of integration activity for prevention, CE and dental practice.

# ERO WG Integration

14. **Adkham Hasanov - President of Uzbekistan Dental Association**

# ERO WG Integration

ERO Integration activity is really useful for development of Eastern European countries, bringing knowledges and the best experience of ERO

It was very good that after Integration work in May 2016 was created the Kazakhstan National Committee that allowed the second Kazakhstan association to become a member of FDI. The Presidents of both associations ready to work together improving dentistry in their country. The meeting has strengthened their activities according ERO constitution

# ERO WG Integration

The meeting of ERO WG Integration in Almaty was held together with Presidents of Eastern European dental associations and Chief Dental Officers of Health Ministries regarding our opinion to invite them on Integration meeting because some Eastern associations are not members of FDI and ERO and not participate in annual FDI and ERO Congresses. According the ERO President and Board recommendations we continue to cooperate with Chief Dental Officers of Health Ministries of Eastern European countries

The success of this work in a good relation and understanding of Chief Dental Officers to collaborate with ERO Integration following the ERO WG Integration's Resolution– 2013 about partnership between NDAs and Ministries. We are very appreciated this cooperation with Chief Dental Officer of Russian Health Ministry Prof. Oleg Yanushevich

The participation of the Head of National Health Chamber of Kazakhstan Republic Daulet Esimov in WG meeting in Almaty is also an example of that. He has reported about changes of the accreditation system in Kazakhstan according European standards and a good relation between both Kazakhstan NDAs and Health Ministry

# ERO WG Integration

November 2016, Almaty

We have congratulated our member of the WG Irina Mazur with her election in October 2016 on the position of President of Ukrainian Dental Association.

Michele Aerden and WG members suggested the following ERO WG Integration resolution's items for NDAs:

- NDAs must to have duties for the importance of oral health and medical position of dentists
- NDAs must to collect epidemiological datas, to establish national preventive programs and to work with authorities
