Re: CEN Membership

Dear Mr. Keller,

Further to your telephone conversation this morning with Claudia Ritter, Director of the CED Brussels office, I would like to confirm the interest of the Council of European Dentists (CED) to become a stakeholder member of CEN.

Established in 1961 upon initiative of the European Commission, the CED today represents 33 national dental associations in 31 countries.

With an office based in Brussels, we contribute to shaping EU policies with the objective of promoting access to, and delivery of high quality oral health care in Europe and patient-safety centred professional practice.

The CED Board is in process of appointing a liaison officer for the CEN/TC 55 on dentistry. We will provide you with his name and contact details following our Board decision on 27 March.

Meantime, do not hesitate to contact the Brussels office if you require further information.

Yours sincerely,

Dr Orlando Monteiro da Silva
CED President

COUNCIL OF EUROPEAN DENTISTS (formerly EU Dental Liaison Committee)

President Dr Orlando Monteiro da Silva
