Items treated:

Liberal dental practice in practice partnerships, practice networks and medical care units

As we decided in Baku, the ERO-WG Liberal Dental Practice prepared a survey concerning our actual theme „Liberal practice at times of multi-dentist dental offices, office networks and ambulatory healthcare centers”.

Our purpose is to find out which are the main forms of dental treatment existing in the ERO member states under special attention that the principles of liberal dental practice and dental ethics will not be destroyed due to economic interests.

We are glad to receive answers from 24 countries, which we will evaluate and publish until our next plenary session.

Dr. Ernst-Jürgen Otterbach

Chairman of the ERO-WG “Liberal Dental Practice in Europe”
