

March 2023

## ERO NEWS 32

Dear ERO family,

please let me wish you a beautiful start of the Spring season 2023!

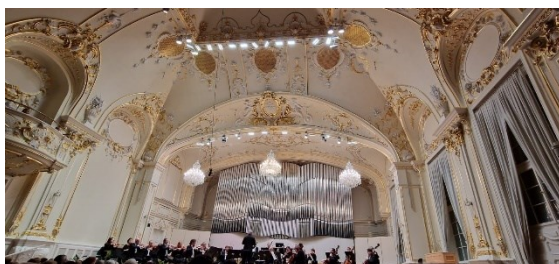

I would like to report you about the recent activities within our organisation. The ERO Board is meeting every month online to discuss relevant issues.

### ERO Board

On 16-17 March we met in person in Bratislava, Slovakia.

The Slovak Chamber of Dentists hosted the ERO Board meeting during the day and offered a very nice cultural program in the evening. On Thursday evening we enjoyed classical concert in the Slovak Philharmonic, where Stravinskij and Haydn prevailed in the program. The young Slovak Trumpet talent, Stefan Masaryk, performs a great solo!

### Slovak Philharmonic

During the working lunch there was a great opportunity to exchange ideas and experiences between the ERO Board members and Slovak Dental Chamber board. We defined common up-to-date issues, like corporate dentistry, e-

Health and data protection, World Oral Health Day activities...

### Slovak Dental Chamber and ERO Board

In the Board meeting we spoke first of all about the upcoming Plenary Session in Istanbul.

Let me invite you once again to register to the **ERO Spring meeting on 28-29 April, 2023.**

The program is fully packed. Already on the previous day, Thursday, there is the ERO Board meeting, followed by the meeting of the ERO Board with the WG Chairs. All working groups will get a possibility to get together and prepare for the PS. The Plenary Session will be held on Friday. Please prepare for the call for creating a **new Working Group on Oral Health!**

If you feel, that a colleague from your dental association would be interested to join or even lead this WG, do not hesitate to propose her/him at the Plenary Session or after it.

We will announce 3 candidates for the Spring 2024 Plenary Session: Cyprus, Israel and Kazakhstan – so prepare for your vote, because YOU will decide where to go next.

Gala dinner on the Bosphorus will be for sure an unforgettable event, especially if you will be on time to catch the breathtaking sunset!

### Bosphorus Dinner Cruise and sunset

March 2023

Please be sure that you don't miss the Saturday morning **FDI workshop on Vision 2030**. After some years of break we are going back to the tradition to hold a half day scientific educational event in connection with the ERO Plenary session. This will be a great opportunity to learn about Vision 2030 from the best FDI speakers, afterwards breaking up into small groups gives to every one of you a unique chance to ask questions and get answers and also share experiences.

After the lunch Istanbul is opening the gates for you.

Looking forward meeting you all in April in Istanbul!

Best wishes,  
Simona Dianiskova  
ERO President
