2. Main Concerns

Please list the three most important concerns currently facing your association.

- a) The creation of Dental Specialities
 - b) Misleading health advertising
 - c) Intrusion
-

3. Key Discussion Points

Please indicate three topics or issues you would like to discuss at international level.

- a) Issues concerning the dental chains (Corporate Dentistry)
 - b) Scope of practice of dentists. Specifically in the field of orofacial harmonisation.
 - c) The use of AI in the field of dentistry
 - d) The impact of Regulation (EU) 2025/327 of the European Parliament and of the Council of 11 February 2025 on the European Health Data Space in the field of dental practice.
-

4. Trends and Developments

Please describe relevant trends and developments in the following areas:

a) Professional Politics

Misleading advertising, official recognition of specialties, regulation of plethora, and fighting against intrusion and unethical invisible orthodontic companies, are still remarkable topics for us to work in.

b) Health and Social Politics

There is no relevant development in this field.

c) Educational Politics

There is no relevant development in this field.

d) Insurance System

(including public health insurance and private insurance schemes)

The plan to expand the portfolio of oral health care services has already started in Spain. Five population groups are distinguished as subsidiaries of this expansion:

- Child and adolescent population from 0 to 14 years of age.
- Programme for pregnant women
- Programme for people with disabilities
- Programme for patients diagnosed with head or neck cancer

An urgent assessment is required in terms of human resources and an adequate economic evaluation of the plan to expand the portfolio of services in dentistry.

5. World Oral Health Day Promotion

Does your association promote World Oral Health Day?

Yes No

If yes, please describe the type of activities (e.g. campaigns, events, media outreach, partnerships):

An educational campaign will be carried out, aimed at the general public, emphasising the importance of the links between oral health and general health. The campaign includes the production of an informative video for dental clinic waiting rooms.
