Dear distinguished colleagues,

During my last, almost 18 years, I was and I'm very active as a scientist, teacher and at my professional positions at national level, as Vice President, President, Past President and Secretary General of the Bulgarian Dental Association (BgDA) and at international level as member of ERO FDI working groups and FDI Members Liaison and Support Committee (MLSC), former Communications and Member Support Committee, Chairperson of the FDI Members Liaison and Support Committee (MLSC), Director of Council of European Dentists (CED), Chairperson of CED Board Task Force Liberal Professions, member of CED working groups etc. I played and I'm playing a positive and fruitful role in the above mentioned organizations.

All the mentioned above shows and I want to declare that I have a good knowledge and experience in all major aspects of the professional policy and the oral health care political issues as well.

Beside my home language I'm fluent in English and Russian languages and manage French.

I have two Master Degrees and three specialties:

1. Master Degree in Dental Medicine with two specialties – "Paesiatric Medical Dentistry" and "General Dental Medicine".
2. Master degree in Buisness Administration with specialty "Health Management".

At the end I want to declare that I have a clear understanding of the vision and mission of ERO FDI World Dental Federation.

Sincerely,

Dr. Nikolai Sharkov
