

WG Digitalisation in Dentistry- E-Health-Artificial Intelligence (WG DD,eH,AI)

Roman Smucler

WG of CED versus WG of ERO
Different WG of ERO

What we plan to do? The platform for development!

- **As minimum – server full of documents – source of information**
- To make small office for WG DD,eH,Al – part time 1 person – Prague?
- To make web, social media
- Regular congress or meetings

- Question- who will finance it? ERO? Czech dental Chamber?

Budget

- To make Web – and social media – 4-6000 euro – starting budget
- Office – annual minimal budget – 6000 euro (part time person + material + phones, data)- Office of ERO? For start- Czech Dental Chamber
- Self-financing (marketing + congress)

Question- who will finance it? ERO? Czech dental Chamber?
Czech Society for Digital dentistry? New society?

- We started from existing Czech Dental Chamber
- I think in the future we can make education, courses etc- new international subject can be more appropriate – but it is future
- Future financing – regular congress and internet advertising (?) or direct ERO only

Targets

- To have all open data accessible to all ERO Dentists- Regulation, projects for inspiration, Technologies, Contacts
- It will be incubator for dental digital revolution
- We want to make it open to help all dentist from ERO- not to make closed expensive business hub as are competitors in the world
- We can be open do advertising (?)but we will be business neutral
- **WG will collect and evaluate data entry**

Social media

- News
- Hub for networking
- Make as many contacts between specialist as possible

Web (new or under ERO main page)

- News
- Regulations (EU, national, whole world)
- Technologies , information
- Digital dental team – definition - education
- Study groups – individual topics
- Future meetings
- Contacts – networking
- Language – English (we can make more languages in the future, of course copies of materials in the original but translation is a mess and we have computers as WG-DD,eH,AI) 😊

What to do now?

- Board has to decide – no decision yet...
- Congress (in Prague?) autumn 2023?
