

**ERO Working group – Continuing Medical Education  
REPORT – Plenary session 2014 – Paris**

The restructured WG Continuing Medical Education will continue its activities under these determined goals;

1. To develop a route on continuing education regarding the multidisciplinary approach to maintain oral health as an integral part of general health. A questionnaire aimed to assess the dental practitioners' attitudes and their dental education under the related scope was developed and will be circulated within the ERO Region countries.
  
2. To constitute a discriptional Continuing Dental Education "**framework**" which can be available on the ERO website to create an international standart guideline and to harmonise the post-graduate education information in different countries.The WG members will work on the outlines of the framework demanding on the fundemantals, requirements and the regulations of the Continuing Education Programs in their countries.

Above mentioned topics will be further discussed in the WG Meeting on Plenary Session 2014, Paris.
