

European Regional Organisation of
the Fédération dentaire internationale

Working group – Relation between dental practitioners and universities

REPORT – Plenary session 2014 - Paris

— The WG determined the topic as Evidence-Based Dentistry (EBD).

We have 2 main goals:

1. To develop a list of resources which would be useful for the dental practitioner regarding EBD: This part is completed. We have drafted such a list and this list will be shared by our colleagues in Paris.
- 2. To determine the attitudes of dental practitioners regarding EBD and its implementation into daily practice: We drafted a questionnaire for this purpose and started our pilot studies in the following countries (France, Georgia, Portugal, Slovakia and Turkey). The study is ongoing at the moment and a brief update on the survey will be provided in Paris.

Prof. Nermin Yamalik
