DR. ANNA LELLA

Candidate for the position of the ERO-FDI President-Elect

Intent Letter

I am a 1992 graduate of the Faculty of Dentistry at the Medical University in Gdańsk, Poland. In 2000 I obtained the qualification of a specialist in the field of periodontology. I am an active dental practitioner (currently running an individual specialist dental practice in Olsztyn) since 1992.

Since the beginning of my professional work I am actively engaged in the activities of the dental organizations in Poland (especially in the professional self-government of physicians and dentists – Polish Chamber of Physicians and Dentists which consists of 24 regional chambers and the Supreme Chamber) as well as on the international level (FDI, ERO-FDI, CED).

Within the Polish Chamber I held the position of Secretary of the Regional Medical Council in Olsztyn for two terms. Currently I am the Vice President of this Regional Council as well as the Vice President of the Supreme Council – now in my second term.

Throughout these years I have obtained wide experience in preparing and co-ordinating the activities of a large professional organization.

For the last 3 years I have based on this expertise and experience holding the position of the ERO-FDI Secretary General. Beside conducting and supervising the everyday functioning of our organization I have actively participated in elaborating some important documents, including internal ERO-FDI regulations (e.g. Rules of procedure of the Working Groups of ERO-FDI; amendments to the Constitution) as well as position papers (e.g. Statement on the role of dental technicians).

The experience gathered throughout the last 3 years and the positive assessment of my activities expressed by many Colleagues have encouraged me to continue the work within the ERO-FDI and to submit my candidacy for the position of the ERO-FDI President-Elect. I am grateful to my national organization for supporting my candidature.

I consider the ERO-FDI a very important organization that associates dentists from all over Europe. I still think that one of the most important issues is the co-operation between dentists from the EU Member States and from the non-EU European countries.

My main goals as the ERO-FDI President-Elect and subsequently President include in:

- to strengthen the perception of ERO-FDI as a visible, significant dental organization that represents the profession within the whole European region;
- to make sure that all the issues important for our profession are properly handled within the ERO-FDI;
- to develop the role of ERO-FDI within the structures of FDI;
- to encourage and support the works of ERO-FDI Working Groups as the vital day-to-day element of the organizations activities;
- to follow-up on the current working model of the ERO-FDI, while further developing and expanding the administrative functioning of the organization to make it as efficient as possible.

The following issues are, in my opinion, the key fields of ERO-FDI's activities:

- safeguarding the role of the dentist as a liberal professional, leading the dental team;
- defending the ethical principles of our profession, most notably the professional independence;
- emphasising the medical rather than the technical nature of the dental profession;
- raising awareness of oral care and its significance to overall health among the society and the authorities;
- development and promotion of under- and postgraduate dental education.

This list is, of course, not exhaustive and many other issues (including all the matters dealt with by the ERO-FDI Working Groups) are of importance and need to be given proper attention.

I am convinced that my experience and expertise remains useful for the activities of the ERO-FDI and I hope that I will be given the opportunity to further serve the interests of our profession, contributing to the achievement of the ERO-FDI objectives.

I kindly ask for your support.

POLISH CHAMBER OF PHYSICIANS AND DENTISTS

SUPREME MEDICAL COUNCIL

NRL/ 8 /2013

Warsaw, 22 February 2013

European Regional Organization
of the World Dental Federation

Dear Colleagues,

on behalf of the Polish Chamber of Physicians and Dentists, the organization associating all Polish dental practitioners, I have the pleasure to recommend the candidacy of dr. Anna Lella for election for the position of the ERO-FDI President-Elect.

I am aware that the delegates to the ERO-FDI Plenary Session already know dr. Anna Lella very well so there is no need to provide greater details regarding her person. A graduate of the Medical University in Gdańsk, she is a specialist in the field of periodontology, in dental practice since the beginning of her professional activity, dr. Lella has been engaged in the works of the Polish self-government of medical and dental professions since 1993 at both the regional level and the national level. She is the Vice President of the Regional Medical Council in Olsztyn, as well as the Vice President of the Supreme Medical Council of the Polish Chamber of Physicians and Dentists (now in her second term).

In addition to the domestic activities, dr Lella is also very active on the international level – representing our Chamber in ERO-FDI, FDI, CED and their Working Groups. She has chaired the ERO Working Group „Parity” as well as the ERO Working Group “Relations between dental practitioners and universities” which had been set up following her proposal.

Since 2010 dr. Lella has the honour to hold the position of the ERO-FDI Secretary General. She has successfully been conducting the day-to-day functioning of the ERO-FDI. Also, on her initiative a number of important documents have been elaborated and adopted (e.g. Rules of procedure of the Working Groups of ERO-FDI; Statement on the role of dental technicians).

Dr Lella is a hard-working person, she has thorough knowledge of the issues related to healthcare and the dental profession in Europe and large experience in parliamentary work and political lobbying, both on the national as well as the international level.

Dr. Anna Lella is a perfect candidate for election to the position of the ERO-FDI President-Elect. I am sure that as ERO-FDI President-Elect and subsequently President she will further contribute to the successful functioning of the ERO-FDI. I kindly ask for your support for her candidacy.

Yours sincerely,

Dr Maciej Hamankiewicz

President

Supreme Medical Council
