Distinguished colleagues,

As President of Turkish Dental Association, I would like to appeal to you with the happiness and proud of being the chairman of such an organization that has been contributing to make the policies of oral health of our country with a population of 75 million.

Dear colleagues, I, with the awareness of occupational organization, was honored with the presidency of the Chamber of Istanbul. Afterwards, I worked as the Vice President between 2002 and 2006 of Turkish Dental Association.

I was elected in the Annual General Assembly of Turkish Dental Association held on November 5-7th, 2010 as the President of Turkish Dental Association.

As known, between 2005 and 2012, as a delegate of Turkish Dental Association I took part uninterruptedly in the works of FDI and also I participated in the ERO Plenary Sessions.

I served with honor for FDI Science Committee and had a chance to criticize the scientific angle of our profession between 2005 and 2008 and between 2008 and 2011.

Due to both institutional studies and also to the geo-political position of our country, I strongly believe that I will contribute to our profession and our policies across the world within the context of our relations with Middle East, Asia, Africa and Europe and the close relationship with FDI.

As a member of ERO, the largest group of dentistry family, I will be more than happy and proud to be a part of this community and serve for ERO as the Board Member of ERO.
