THEORETICAL PROCEDURE

The first purpose of this WG is to compare the Profession of Dental Auxiliaries in Dental Team in Europe

DENTAL TEAM

THEORETICAL PROCEDURE

***The issue will focus on the profession
training compared among the one in
Europe***

DENTAL TEAM

PROBLEMS DEFINITIONS

Professional entitlement

Recognition of Diplomas and free circulation in the EU

Diploma Certificate and relations to professional institutions like Associations and or Membership in a Professional Register

DENTAL TEAM

CONTEXT OF PROBLEMS

Profiles and Professional Trainings in Europe vary from each other because of different social-cultural traditional contexts according to different realities and needs of the citizens-patients.

DENTAL TEAM

CONTEXT OF PROBLEMS

School Trainings differ in timing, context and profiles arranged and/or adopted by social and institutional level

DENTAL TEAM

THE PURPOSE

To compare the profession, education and training in the whole Old Continent and trace the minimal requirements need to reach a common professional profile as well as to assure high quality of treatments to all European citizens where this figure exists

DENTAL TEAM

METHODS & MATERIALS

At this stage a Bibliographic research, publications, texts, laws, directives and questionnaires started using information-means to get in contact with Institutions, Dental Professional Association, Universities such as:

DENTAL TEAM
