Venue: Salzburg

Year: 2017

Please classify your national report by following subjects:

Changes

in the association and its organisation

New President of KSA became Dr. Aslan Zhangereyev in October 2017. At the same time new President Elect was elected, his name is Galym Pernebayev

Trends and developments:

- 1. In professional politics: The state increased the amount of free guaranteed dental care for children and pregnant women. KSA cooperates with Health Ministry and National Chamber of Health Care for more fruitful solving the problems of dentists in Kazakhstan and for organizing dental Congresses and Conferences, using the experience of European dentistry.*
- 2. In health and social politics: Kazakhstan has adopted the Strategic Plan of the Ministry of Health of the Republic of Kazakhstan, aimed at the formation of a healthy competitive nation, the improvement of the dental service system and the development of Kazakhstan dentistry*
- 3. In educational politics: It is required to establish the correspondence between the requirements of such documents as the "State compulsory standard of education of the Republic of Kazakhstan" and the "Profile and competence of the European dentist". Acquaintance with the activities of the European Association of Dental Education, the establishment of direct business contacts, the further development of integration, promoting dialogue and cooperation among educators in the*

- European countries; presentation of international trends that promote high standards in the development of dental education.*
4. *in the insurance system (incl. the public health insurance and private insurance schemes): The system of compulsory health insurance in Kazakhstan will be implemented in stages from 2017 to 2024. Also, the percentage of mandatory contributions will increase in stages. The basic package is the guaranteed amount of free medical care. It includes ambulance, sanitary aviation, assistance with diseases of social significance, and routine vaccination. Financing is The basic package is the guaranteed amount of free medical care (GFMP). It is now and includes ambulance, sanitary aviation, assistance with diseases of social significance, and routine vaccination. Financing is at the expense of the republican budget. The second package includes outpatient and inpatient care, rehabilitation, palliative care and nursing care, and high-tech care. Financing is from the Health Insurance Fund, where the population will transfer contributions. The third package is individual - in the event that a citizen wants to receive an extended list of medical services, he will need to make deductions in excess of the approved percentage. From the payment of contributions to the Social Health Insurance Fund will be released: children, mothers with many children, participants and invalids of the Second World War, pensioners, invalids, officially registered unemployed (registered in employment centers), boarding students, full-time students of technical schools, trade schools, universities and postgraduate education in the form of residency, mother on maternity leave in connection with the birth of a child (adoption) of a newborn child) and to care for a child before reaching the age of 3 years, the military, employees of special government and law enforcement agencies*
5. *in dental care for persons applying for asylum or refugees: medical care in accordance with the legislation of the Republic of Kazakhstan in the field of health;*

Migration:

of dentists: problems and possible solutions. The problem of migration of dentists to other countries exists, but this problem is

not strongly developed. Improving the working conditions of dentists will serve to solve this problem.

of persons applying for asylum or refugees: problems and solutions in dental care. Asylum seekers have other rights and freedoms, as well as bear all the duties established by the Constitution, laws and international treaties of the Republic of Kazakhstan for foreigners and stateless persons.

Changes in fees: Number of members of KSA decreased from 2000 to 1000 because half of dentists became members of UKAD. So we consider that our fees also should be decreased

Information regarding promotion of the World Oral Health Day: Activities are carried out in schools, kindergartens, orphanages, with contests, quizzes, trainings and rewarding with memorable gifts

Further information (activities):

Kazakhstan Stomatological Association every year organizes the International Dental Conference and Exhibition. Last time it was organized together with UKAD in Astana city from 30th of June to 1st of July 2017, where the FDI President, Dr P.Hescot, came with the speech about FDI Policy.

Kazakhstan Stomatological Association also organizes many seminars, workshops and so on.

What are your 3 main concerns?

- 1. The lack of production of dental materials, tools, etc in Kazakhstan***
- 2. Very few foreign lecturers are ready to come to Kazakhstan for training dentists***
- 3. Bringing the full conformity of the state program with the international program of dental education***

3 points you would like to discuss:

- 2. Textbooks, tools on prevention of dental diseases***
- 3. Webinars for doctors from KSA***
- 4. List of lectures, who is ready to come to Kazakhstan to teach the dentists***
