

ERO Working group – Continuing Medical Education in Dentistry

REPORT – Plenary session 2018– Salzburg/Austria

ERO WG Continuing Medical Education in Dentistry would like to report; Activities of the WG Continuing Medical Education in Dentistry will continue to finalise as below mentioned;

1. Through the Proceedings on the action plan of WG, following the approval of the ERO Board and the plenary, a new consent and protocole between ERO and FDI European Refgional CE Directory was assigned. The protocol and the consent will be both sent by the ERO Board beside presenting during the plenary presentations for call.
2. With the acceptance of FDI Council, ERO C constituting a frame program is currently being prepared as a draft for getting finalised and presented. As it was mentioned in ERO Report in Poznan, to realise and activate that ERO Continuing Medical Education in Dentistry Declaration was accepted to be a policy statement which was editted by Hande Şar Sancakli who is the responsible education commitee member to proceed. DRAFT Version will be shared with the NDAs through the routine PS procedure.
3. The latest work initiated by the WG Continuing Medical Education in Dentistry; a new evaluation survey to assess “best model” to provide effective and integrative CE activities to reach the the dental profession for updating the medical continuing professional development has been distributed online and the link will be shared among FDI-ERO member countries.Results will be

analysed and presented in Buenos Aires ERO Plenary to reach the highest participants evaluation.

Proceeding with all participating members confirmation of ERO WG Continuing Medical Education in Dentistry, I would like to mention all the above mentioned topics and further new projections will be discussed during the WG meeting scheduled during the ERO Plenary Session in Genève.

Assoc.Prof.Dr.Hande Sar Sancakli

Chair of the ERO WG Continuing Medical Education in Dentistry
