

WG Activities Report

24-25 April, 2015
Tbilisi, Georgia

Presentation layout

1. Project 1. Evidence-based dentistry
2. Project 2. Clinical guidelines for dental practice
3. Collaboration with ADEE (E.g. specific WG projects)

Project 1. Evidence-based dentistry

1. Article for IDJ - Accepted for publication
(as the 3rd article of our WG)

Early view – on line

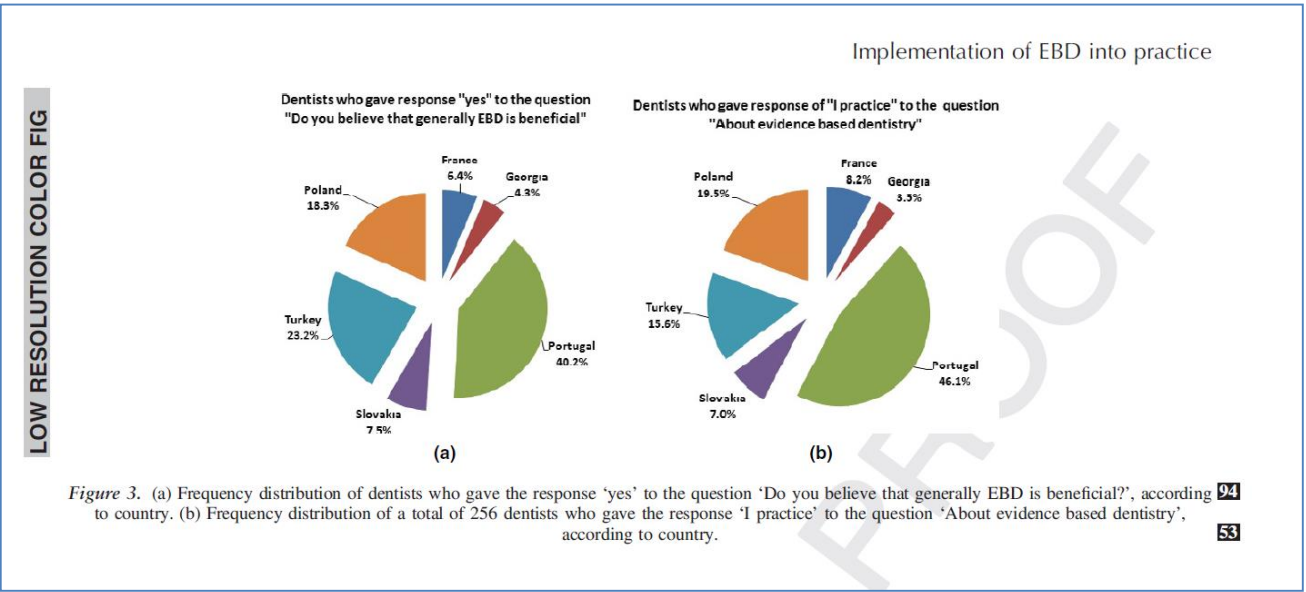

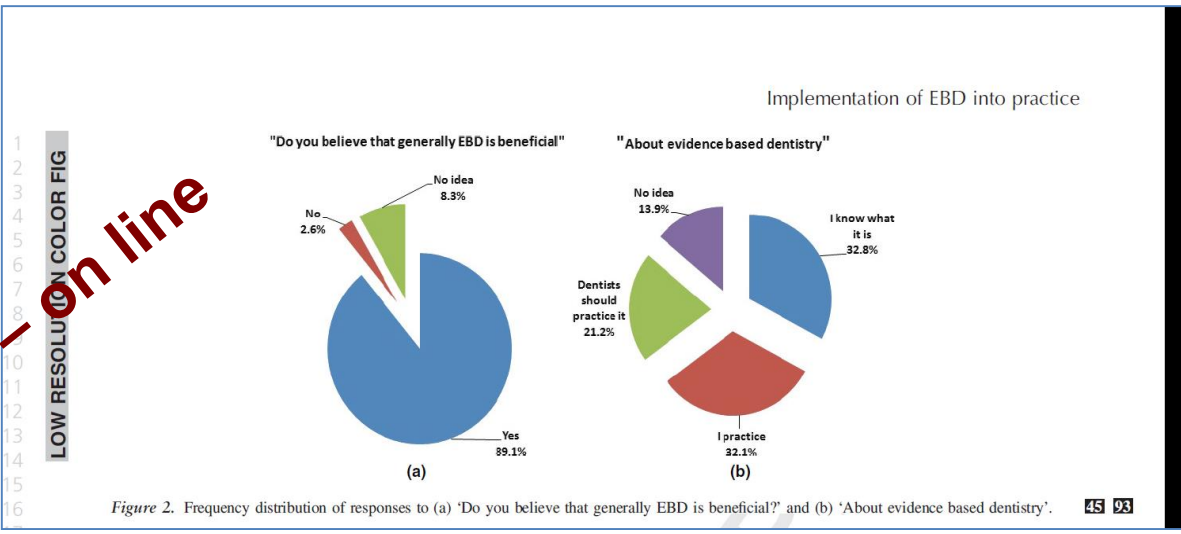

Implementation of evidence-based dentistry into practice: analysis of awareness, perceptions and attitudes of dentists in the World Dental Federation–European Regional Organization zone through a multicentre questionnaire*

Nermin Yamalik^{1,2}, Secil Karakoca Nemli³, Eunice Carrilho⁴, Simona Dianiskova⁵, Paulo Melo⁶, Anna Lella⁷, Joel Trouillet⁸ and Vladimer Margvelashvili⁹

¹Department of Periodontology, Faculty of Dentistry, University of Hacettepe, Ankara, Turkey; ²FDI-ERO WG 'Relations Between Dental Practitioner and Universities', Bern, Switzerland; ³Department of Prosthodontics, Faculty of Dentistry, University of Gazi, Ankara, Turkey; ⁴Faculty of Medicine, University of Coimbra, Coimbra, Portugal; ⁵Department of Orthodontics, Medical Faculty, Slovak Medical University, Bratislava, Slovakia; ⁶Faculty of Dentistry, University of Porto, Porto, Portugal; ⁷President-elect, FDI-ERO, Polish Chamber of Physicians and Dentists, Warsaw, Poland; ⁸Association Dentaire Française (ADF), Paris, France; ⁹Department of Dentistry and Maxillofacial Surgery, Faculty of Medicine, Tbilisi State University, Tbilisi, Georgia.

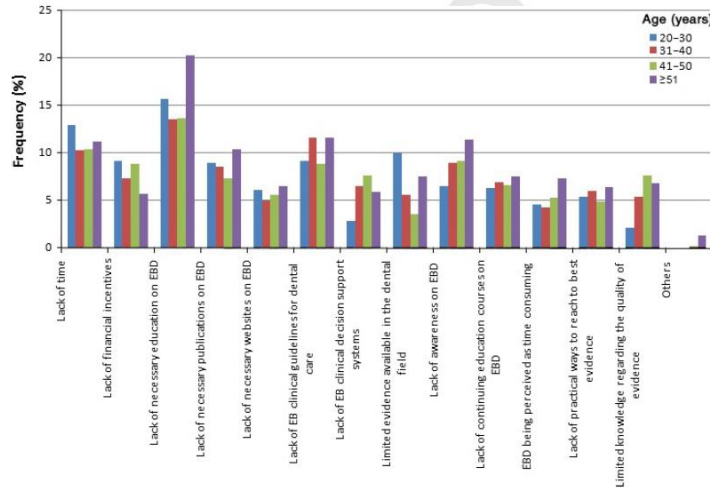

Figure 5. Frequency of reported barriers to the implementation of evidence-based dentistry (EBD) into practice.

Early view – on line

Acknowledgements

The authors would like to thank to the six National Dental Associations (French Dental Association, Georgian Dental Association, Polish Dental Chamber, Portuguese Dental Association, Slovakian Dental Chamber, Turkish Dental Association) for kindly participating this survey. The authors also would like to thank all the members of WG.

Project 1. Evidence-based dentistry

Introduction to EBD
Using evidence on the web
BD clinical guidelines
Uses of EBD in daily practice

Health care is witnessing an explosion of fundamental, clinical and translational research evidence. The emerging paradigm of evidence-based health care rests on the judicious integration of the patient needs/wants, the provider's expertise, and the best available research evidence in the treatment plan. The purpose of this book is to

| # | COUNTRY | WEB SITE ADDRESS | EBD SECTION | AVAILABILITY (Free access, membership needed, fee etc.) | CONTENT |
|---|-------------|---|-------------|--|--|
| 1 | USA | http://ebd.ada.org/ | YES | free access (membership needed only in articles published in JADA) | There is information about "What is EBD?" and also FAQ about EBD, "Systematic Reviews", "Clinical Recommendations", "Resources", "Suggest Clinical Ideas" and "Tutorials" parts are present in the web site. There is also articles about EBD published in JADA however membership is needed. |
| 2 | NEW ZEALAND | http://www.nzda.org.nz/pub/index.php?id=69 | YES | free access | The definition and the importance of EBD are included and the importance of reliability of evidence-based decisions in dental practices is highlighted. Additionally, this web site provides information about how to search in internet in dental and medical literature. Gives examples in EBD articles published in different journals. |
| 3 | INDIA | http://membership.ida.org.in/Membership_Details/memScienceandEducation.aspx | YES | free access | IDA acknowledges the importance of evidence-based dentistry (EBD) and its influence on clinical practice, dental education, research, consumer guidelines and public perception. |
| 4 | AUSTRALIA | http://www.ada.org.au/pp_cmshl/media/hly/1009/m256254.v1_policy%20statement%20evidence-based%20dentistry.pdf | / | / | They only published a policy statement about EBD in April 2008. |

| AGENCIES & CENTERS | | Web site | URL | CONTENT |
|--------------------|---|----------|--|--|
| 1 | Agency for Healthcare Research and Quality (AHRQ) | Web site | www.ahrq.gov | It is the health services research arm of the U.S. Department of Health and Human Services (HHS). EB information on quality improvement and patient safety; outcomes and effectiveness of care; clinical practice and technology assessment; health care organization and delivery systems; primary care (including preventive services); and health care costs and sources of payment |
| 2 | Canadian Centres for Health Evidence (CHE) | Web site | www.cche.net | CHE provides extensive information on how to identify the required evidence, how to critically appraise published literature and understanding statistics Knowledge-based resources and summaries to health professionals |
| 3 | Center for Evidence-Based Medicine University of Toronto | Web site | www.cebm.utoronto.ca | Materials related to teaching and practicing EBD Glossary of EBM terms, resources for handheld devices, and links to other EBD sites |
| 4 | Centre for Evidence-Based Medicine National Health Service (UK) | Web site | www.cebm.net | Resources which promote and provide support evidence-based health care providers, students and patients The Centre for Evidence-based Dentistry, promote the teaching, learning, practice and evaluation of evidence-based dentistry world-wide. The Centre is the Editorial base for the Evidence-based Dentistry Journal and is one of the members of the Virtual Centre for Improving Oral Health. |

Project 1. Evidence-based dentistry

2. Resources for EBD for the NDAs

- A) Dynamic 'model' list of EBD resources (available on ERO web-site)
- B) Model article – How to ask a question and find evidence?
(drafting the article)

Ongoing

B) Model article – How to ask a question and find evidence?
(drafting the article) - to serve as a simple
demonstration

Ongoing

Question: Which loading protocol should be selected for dental implants in anterior esthetic zone in young patients?

**Team - Portugal, Slovakia & Turkey –
currently drafting the article..**

Finding evidence:

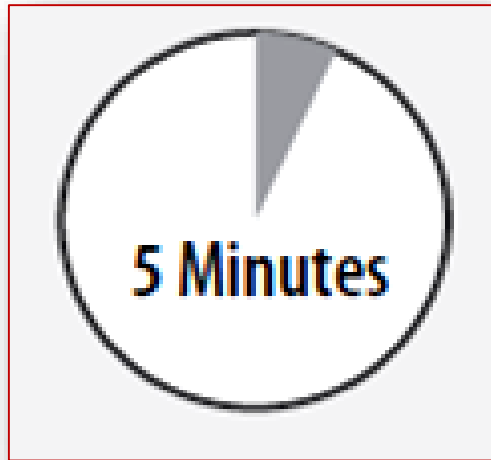

In 5 minutes?

In 30 minutes?

In 1+ hour?

What you can do in 5 minutes?

Search EBD.ADA.org by topic for systematic review abstracts with critical summaries from Cochrane Collaboration, DARE, National Library for Health

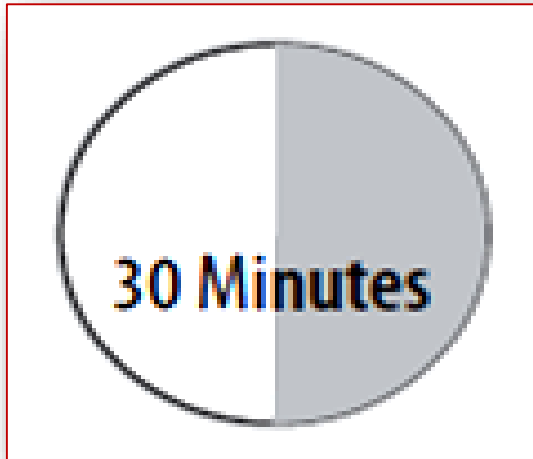

ADVANTAGES

- ✓ Fast, simple and free.
- ✓ Requires little advanced skill

LIMITATIONS

- Requires that the topics should be well researched
- May not completely or directly answer the PICO question

What you can do in 30 minutes or less ?

Search EBD.ADA.org by topic for systematic review abstracts with critical summaries
Search PubMed Clinical Queries area for systematic reviews and randomized controlled trials

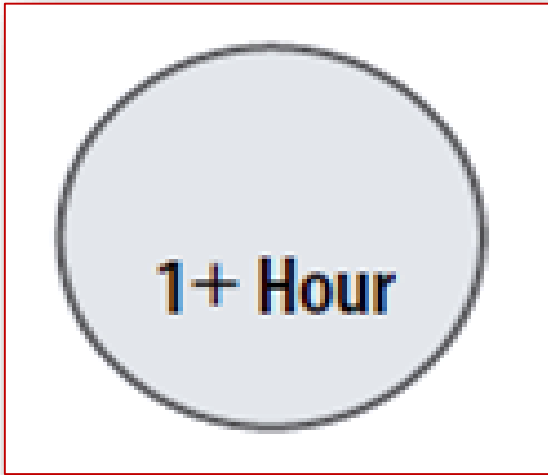

ADVANTAGES

- ✓ Fast, simple and may thoroughly answer your question
- ✓ Demands minimum time.
- ✓ Efficiently utilizes high quality systematic reviews and other pre-appraised evidence
- ✓ Free or minimal cost

LIMITATIONS

- Requires some reliance on others for critical appraisal.

What you can do in 1 + hour if you have more time or would like to greatly expand your knowledge ?

Search PubMed Clinical Queries area for systematic reviews and randomized controlled trials, and other clinical studies of high quality (cohorts, case control)

ADVANTAGES

- ✓ The most thorough answering of your question
- ✓ Requires no reliance on others for critical appraisal

LIMITATIONS

- May be time consuming and requires advanced skill level.
- Minimal to moderate cost

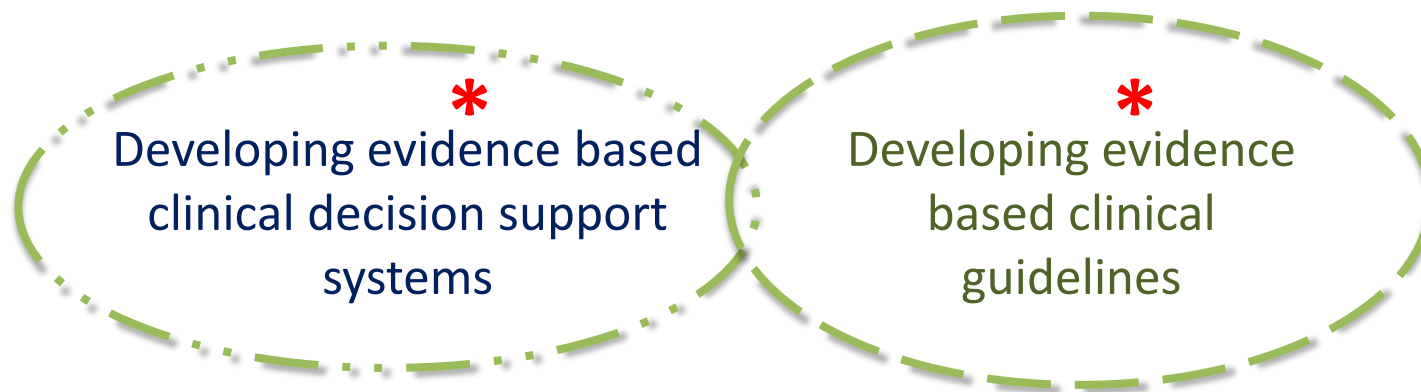

Presentation layout

Descriptive information for each category of the 'Draft Clinical Guidelines'

- *TITLE OF RESOURCE*
- *AUTHOR*
- *TYPE OF RESOURCE*
(Book, web site, statement, review article, periodic journal, etc..)
- *AVAILABILITY*
(web site address, etc.)
- *NOTES & RECOMMENDATIONS*
(free access, membership needed, fee)
(How can this resource be used by the dental practitioner)
- *CONTENT*
(Case studies, level of evidence, implementation of EBD to practice)

Endodontics

- Red is the colour-code of “**Endodontics**”
- A total of 12 guidelines are included in this category

| TITLE OF RESOURCE | AUTHOR | TYPE of RESOURCE | AVAILABILITY | NOTES & RECOMMENDATIONS | CONTENT | |
|--|---|-----------------------------|---|---|--|-------------|
| 1 Dental trauma guidelines. | Bakland LK. | article | http://www.jendodon.com/article/S0099-2399(12)01001-1/abstract | For general practitioners | Guideline for management of dental trauma | endodontics |
| 2 Guidelines for Access Cavity Preparation in Endodontics | Ricardo Caicedo; Dr. Odon; Stephen Clark, DMD; Liliana Rozo, DDS and Joseph Fullmer, BA | clinical guideline | http://www.devosendo.nl/uploads/pdf/116_Guidelines%20for%20access%20cavity.pdf | Especially for endodontics | includes the a text couse | endodontics |
| 3 Guidelines for diagnosing and treating endodontic emergencies. | HealthPartners Dental Group | clinical guideline | http://www.guideline.gov/content.aspx?id=15226 | Especially for endodontics | includes guidelines | endodontics |
| 4 Guidelines for REPROCESSING PROCEDURE FOR DENTAL INSTRUMENTS AND IMPLANTABLE RADICULAR DEVICES | Maillefer Sterilisation Instructions | clinical guideline | https://www.dentsply.co.uk/Products/Endodontics/Maillefer-Sterilisation-Guidelines.aspx | Especially for FOR DENTAL INSTRUMENTS AND IMPLANTABLE RADICULAR DEVICES reprocessable | includes guidelines | endodontics |
| 5 Guidelines on endodontics. | American Association of Endodontists | official clinical guideline | http://www.aae.org/guidelines/ | Especially for endodontics | includes six guidelines and some position statements | endodontics |
| 6 Methods of Diagnosis and Treatment in Endodontics | Swedish Council on Health Technology Assessment | clinical guideline | http://www.sbu.se/upload/Publikationer/Content0/1/Methods%20of%20Diagnosis%20and%20Treatment%20in%20Endodontics_full.pdf | Especially for endodontics | includes a systematic review | endodontics |

| | TITLE OF RESOURCE | AUTHOR | TYPE of RESOURCE | AVAILABILITY | NOTES & RECOMMENDATIONS | CONTENT | |
|----|--|--|-----------------------------|---|---|--|-----------------------------|
| 7 | Quality guidelines for endodontic treatment | European Society of Endodontology | official clinical guideline | http://onlinelibrary.wiley.com/doi/10.1111/j.1365- | Especially for endodontics | includes a paper with guidelines | endodontics |
| 8 | Recommended Guidelines of the AAE for the Treatment of Traumatic Dental Injuries (revised 2013) | American Association of Endodontists | official clinical guideline | http://www.nxtbook.com/nxtbooks/aae/trauma-guidelines/#/0 | For endodontics and general practitioners | Includes clinical guidelines | endodontics |
| 9 | Update of guidelines for surgical endodontics | G. E. Evans, K. Bishop and T. Renton | clinical guideline | http://www.exodontia.info/files/BDJ_2012_Update_of_Guidelines_for_Surgical_Endodontics_-_the_Position_after_10_Years.pdf | Especially for endodontics | includes a paper with guidelines | endodontics |
| 10 | Dental Trauma Guide: a source of evidence-based treatment guidelines for dental trauma. | Andreasen JO1, Lauridsen E, Gerds TA, Ahrensburg SS. | article | http://onlinelibrary.wiley.com/doi/10.1111/j.1600-9657.2011.01059.x/abstract;jsessionid=D503CB81048BCEBFBB88F4D053927BE.f04t03 | For general practitioners | Includes guideline for diagnosis and treatment for traumatic dental injuries | endodontics + pedodontics ? |
| 11 | Guidelines for Surgical Endodontics | RCS, Faculty of Dental Surgery: Evans, G. E., Bishop, K. & Renton, T. | guidelines | https://www.rcseng.ac.uk/fds/publications-clinical-guidelines/clinical_guidelines/documents/surgical_endodontics_2012.pdf | Update of the 2001 Guideline by W. Saunders | Surgical endodontics describes a procedure combining root-end resection, apical curettage and root-end filling | endodontics+ surgery |
| 12 | International Association of Dental Traumatology guidelines for the management of traumatic dental injuries: 3. Injuries in the primary dentition. | Malmgren B1, Andreasen JO, Flores MT, Robertson A, DiAngelis AJ, Andersson L, Cavalleri G, Cohenca N, Day P, Hicks ML, Malmgren O, Moule AJ, Onetto J, Tsukiboshi M; International Association of Dental Traumatology. | clinical guideline | http://onlinelibrary.wiley.com/doi/10.1111/j.1600-9657.2012.01146.x/abstract | For pediatrics | Includes guidelines for the immediate or urgent care for management of primary teeth injuries | endodontics + pedodontics |

A new question:

Clinical guidelines

Are they;

1. Available
2. Reliable
3. Up-to-date
4. Applicable
5. Beneficial

New project

Attitudes and perceptions of dentists in the ERO-zone
regarding dental
clinical guidelines

Background & Aim

Clinical decision making is a routine for every dental practitioner and it is an important part of daily dental practice. Although the dental practitioner using his/her educational background and training, available data and scientific evidence and clinical expertise is usually able to *successfully make his/her clinical decisions* in most cases. This does not mean that dental practitioners do not need *any support*.

Clinical recommendations, Position papers, Consensus statements, Position statements and Clinical guidelines essentially aim at providing this support for dental practitioners in their everyday practice.

Background & Aim

However, developing of clinical guidelines and their use in health care (including dentistry and medicine) is a process where certain **questions** and **concerns** also arise.

This questionnaire aims at evaluating the **current situation** and the **perceptions** of dental practitioners regarding **developing** and **using** clinical guidelines in dental practice.

Questionnaire

‘Clinical guidelines and their use in dental practice as a supportive tool’

- **Country:**
- **Age:**
- **Gender:**
- **Years of practice:**
- **Kind of practice:** a. General practice b. Specialist in dentistry
- **Kind of practice:** a. Private b. Public c. Public and private
- **Kind of practice:**
 - a. Solo
 - b. Solo in a medical clinic
 - c. Group practice (In a dental clinic with other dentists)
 - d. Group practice (In a medical clinic with other dentists)
 - e. University - faculty member (private university)
 - f. University - faculty member (public university)
 - g. Other (please specify)

1. I know about clinical guidelines

- a) Yes b) No

2. If yes, I know about clinical guidelines because;

- a) I read them in dental journals
- b) I read them on web sites of specialization organizations
- c) I use search engines to find them.
- d) My National Dental Organization sends me information about them.
- e) I learned about them from the continuing education courses which I attend
- f) I learned about them from my Undergraduate dental education
- g) Other (please specify).....

3. I use clinical guidelines in daily practice

- a) Yes b) No c) No idea

4. If yes, I use clinical guidelines in dental practice

- a) Always b) Frequently c) Sometimes d) Rare e) Very rare

5. Do you believe that clinical guidelines are generally beneficial?

- a) Yes b) No c) No idea

6. If yes, I believe that clinical guidelines can be beneficial because;

- a) They can improve the accuracy of diagnosis
b) They can improve the clinical treatment plan
c) They can decrease the time necessary for the diagnostic process
d) They can decrease treatment complications
e) They can improve the outcome of treatment
f) Other (please specify).....

7. Who benefits from clinical guidelines and their use in dental practice?

- a) Dentist
- b) Patient
- c) Public
- d) Dental profession
- e) Others (please specify)

8. Do you believe that dentists use clinical guidelines in practice?

- a) Yes
- b) No
- c) No idea

9. If no, what are the barriers to the use of clinical guidelines in practice? (more than one option can be chosen..)

- a) Lack of time
- b) Lack of awareness on clinical guidelines
- c) Lack of practical ways to reach to clinical guidelines
- d) Limited guidelines available in the dental field
- e) Lack of evidence-based clinical guidelines for dental care
- f) Clinical guidelines being perceived as restricting the 'clinical freedom of dentists'
- g) Lack of consensus/agreement regarding certain aspects of the available guidelines
- h) Limited knowledge regarding the reliability of the methods used for developing guidelines
- i) Limited knowledge regarding the reliability of the guideline development group/body
- j) Lack of confidence regarding competing interests of guideline development group members
- k) Limited knowledge regarding the regular update of the guidelines when new evidence becomes available
- l) Lack of specific and unambiguous recommendations in the guideline
- m) Other (please specify)

10. Is there a role for the National Dental Association regarding clinical guidelines?

- a) Yes b) No c) No idea

11. If yes, what is the role of National Dental Associations in improvement of the use of clinical guidelines and clinical decision support systems in practice? (more than one option can be chosen)

- a) Creating a general awareness on clinical guidelines
- b) Developing evidence based clinical guidelines
- c) Developing various evidence based clinical decision support systems including clinical guidelines
- d) Informing dentists about available clinical guidelines
- e) Informing dentists about updated clinical guidelines
- f) Attempts to overcome the barriers to implementation of clinical guidelines into practice
- g) Other (please specify)
- h) None

12. Do you believe that dental faculties and National Dental Associations can collaborate for developing clinical guidelines?

- a) Yes b) No c) No idea

13. Do you believe that clinical guidelines should be developed by;

- a) Universities
- b) National Dental Associations
- c) Scientific communities
- d) Expert people
- e) Joint activity of various dental bodies
- f) Other (please specify)
- g) No idea

14. Do you believe that dental faculties and National Dental Associations can collaborate for disseminating clinical guidelines?

- a) Yes
- b) No
- c) No idea

15. Do you believe that clinical guidelines should be valid for;

- a) Up to 2 years
- b) Up to 5 years
- c) Until new evidence becomes available
- d) No idea

16. How often clinical guidelines should be updated?

- a) Every 2 years
- b) Every 5 years
- c) When new evidence becomes available
- d) No idea

3. Collaboration of ERO and ADEE

- Common grounds for partnership
- Specific projects and proposals – for scientific and educational input from ADEE

'Formal' communication started

Outcomes of our ERO WG projects to be shared by ADEE for scientific and educational input & for the awareness of the scientific community :

(E.g.) Our WG project outcomes:

- EBD article
- Draft list of clinical guidelines

Proposal :

Drafting a joint article about 'Clinical guidelines for dental practice: current situation and recommendations for the European dentists'

Thank you
