

ERO Working group – Continuing Medical Education in Dentistry REPORT – Plenary session 2015 – Tbilisi

ERO WG Continuing Medical Education in Dentistry would like to report that;

1. Concerning the development of the route on continuing dental education regarding the multidisciplinary approach to maintain oral health as an integral part of general health, the questionnaire aimed to assess the dental practitioners' attitudes and their dental education under the related scope. Questionnaires were circulated within the ERO Region countries. The results of the received and analyzed questionnaire will be presented in the Plenary Session. Afterwards article regarding the questionnaire results will be written and submitted to IDJ according to the WG agreement.
2. WG Continuing Medical Education has discussed the final draft of the discriptional Continuing Dental Education "**framework**" which can be available on the ERO website to create a qualificational guideline to harmonise the post-graduate education information in different countries which would not interfere with the existing standards of the EU. The draft criteria framework will be finalised during the WG meeting in Tbilisi.

ERO WG Continuing Medical Education in Dentistry would like to continue its future activities by

- ✓ Proposing to create a template for session topics for congresses which shall be established and distributed to the NDAs in order to contribute in scientific organization and structure of future congresses under the scope Vision 2020.

- ✓ To foster the educational materials such as publishing articles in the NDA journals underlining the relation focusing on oral health and general health beside elaborating articles to be published in the IDJ.

Above mentioned topics will be further discussed in the WG Meeting on Plenary Session 2015, Tbilisi.

Assoc.Prof.Dr.Hande Sar Sancakli

Chair of the ERO WG Continuing Medical Education in Dentistry
