WG Basic and Continuing Dental Education

Chairman: Professor. A. Mersel
Prof. V. Jerolimov
Prof. N. Yamalik

All health professionals always have been and are expected to achieve a particular set of competencies and maintain (even improve) them throughout their professional career.

Dental professionals are no exception.

Continuing Education : Needs

- 1-Need for developing a teaching & learning system
 - 2-Need of an Education system characterized by an openness of discourse ,and encourages networking dialogue exchanges
 - 3-The Dental Profession should coordinate and be the leader of this program**
-

More emphasis on competencies

.....

- Continuous development of new and innovative ways of oral health care and treatment
- Better understanding of the close interaction between oral - general health & need for more medical positioning of dentistry
- Easy spread and quick renewal of science, knowledge, technology and information
