

### **Working group Ageing Population.**

The working group met on September 24th 2020. Working document was a discussion paper on Ageing Population (attached). A summary was made of the meeting (attached). In the meanwhile, further information is gathered from Germany and Switzerland which could serve as a basis for the development of a toolkit for nurses, auxiliaries and also for homecare.

### **Joint Workforce on AMR**

The Joint Workforce on AMR met on July 14th 2020. Concluded was to focus on November 18th, the start of the World Antimicrobial Awareness Week and develop a podcast message on AMR for dentists and NDA's. The long-term focus of the Joint workforce is to develop a communication strategy, webinars, infographics and easy to read documents on AMR. The draft-script for the podcast on AMR is attached.
