The second section of ERO WG Integration meeting was dedicated to continuing dental education. Jurgen Fedderwitz reported about the continuing education in Germany, Hans Schrangl about the continuing dental education in Austria and Borislav Milanov about that of Bulgaria. Solomon Rabinovich as the spokesman of Oleg Yanushevich, Chief Dental Officer of the Ministry of Health of Russian Federation presented the pilot project of Russian Ministry of Health for continuing education.

WG Integration members without other participants of the meeting discussed of further WG Integration activity considering the recommendation of WG supervisor Hans Schrangl. On common agreement, WG members considered:

- to finalize the EU Manual for dental practice upon responses from the remain Eastern European countries to a questionnaire to New-Deli;
- as well as to continue the integration activity with prevention issue in mind over the other Eastern European countries;
- to continue educational theme organizing common meeting with ERO WG Continuing education;
- to include integration activity for dental science starting with Russia.

The President of Bulgarian dental association Borislav Milanov and Michele Aerden also suggested to involve Central European countries such as Balkan countries to the integration activity on these topics because of their actuality.

In conclusion, the ERO WG Integration meeting activity was to establish a good relationship between ERO and new ERO countries and to open the opportunity for information and experience exchange between NDAs leading to the mission of improvement of dental health care.
