National Report

Country: The Republic of Azerbaijan

Association: Azerbaijan Stomatological Association

Venue: Baku Year: 2019

Changes

Within the reporting period for 2019, the Azerbaijan Stomatological Association has not undergone changes with regard the structure or administration.

Trends and developments:

In the sphere of professional policy, the Azerbaijan Stomatological Association pursued the policy provided for by its Charter. This covers the professional development activities of medical dental personnel, as well as educational work among the population, especially children, the need for timely oral care and the importance of oral health.

In the field of healthcare and social policy, the Azerbaijan Stomatological Association continues its contacts with the Ministry of Health. This year, Association and Ministry jointly get to the country Parliament with the initiative to develop and adopt a legislative framework for dental health of the population.

In educational policy, the Azerbaijan Stomatological Association conducts an annual congress and repeatedly seminars and trainings for doctors in various areas of dentistry throughout the year.

In addition, during the reported year, the range of specialities for the preparation of Masters in the field of dentistry has expanded. Masters will receive education in the following specialities: pediatric dentistry, orthodontics, orthopaedic, periodontics, endodontics, restoration dentistry.

In the insurance system, changes related to the expansion of state medical insurance services, including those in the field of dentistry.

Corporate Dentistry

-We believe that in countries that have recently become independent and pursuing the policy of democratic transformation, this is necessary to further strengthen the joint work of health organizations and professional associations. To this end, more frequent communication of FDI and ERO decisions to healthcare authorities in countries is desirable

Changes in fees: N/A

Information regarding promotion of the World Oral Health Day:

-The Azerbaijan Stomatological association is actively involved in the conduct of World Oral Health Day(WOHD). We organize conferences among students and doctors, where they deliver presentations on drawing attention to oral health, as well as publications on WOHD are issued in the media.

Further information (activities):

-This year, the next issue of Caucasian Dental News was released. The journal is of a scientific and practical nature and is intended for a wide dental audience.
