A side a research on the fundamental rules concerning this topic, it's necessary to Launch a study concerning the different situation within the countries ERO members. A questionnaire has to be set –up and send. Afterwards analysis and discussion about the results might indicate the status of accreditation in Europe. This topic was also Presented within an article sent for publication : Evolution of Continuing Education in Europe , authors Prof.A.Mersel, Prof. P. Melo and Prof.V.Jerolimov
