Meetings:

April 2012, Prague

Items treated:

- „Deregulation and Liberalisation of dental fee schedules in the European context”
- “Liberal Profession – the pillar of any free society” and the “basement” of ERO working models

In our last working group session in Prague we discussed the answers of our survey: “How free ore compulsive are dental fee schedules in the different countries of the ERO?”

The number of the answers was not very encouraging – so I hope we can present some more answers in our coming meeting in Hong Kong.

Due of this, it was in Prague only possible to present first aspects.

Our goal in Hong Kong is, to figure out and to decide in the working group, basing on the actual number of answers from the ERO - members, whether it is appropriate to draft a statement which underlines the claim of “deregulation and liberalisation of the dental fee schedules” in the European context.
