

Report ERO WG Integration, Prague 2012

We would like to suggest to ERO Board to start integration activity with project of Continuing Education and knowledge transfer provided by NDAs. This issue is among the most common and actual topic for all countries especially for Eastern European countries (Russia and CIS) due to a big differences in the systems of Prevention, Education and Dental Practice in each of the ERO countries.

We had a very efficient meeting on the 7th of October in Antalya with the Presidents of Dental Associations of Eastern European countries and FDI representative Prof. Nermin Yamalik. The purpose of the Round Table was establishing a good relations with the Presidents of Dental Associations of Eastern European countries and assessment of the situation of dental healthcare in these countries.

One of the most actual topics for Eastern Europe is the information dearth in new dental technologies and innovative knowledge. We intend to improve and enhance their knowledge to bring dental Hi-Tech with Master-Classes, Scientific Conferences, Training Seminars, Workshops, using the opportunity of Russian MosExpoDental in Moscow in Gostiny Dvor to organize the meeting of the Presidents of Dental Associations of Eastern European countries and members of the ERO WG Integration.

This initiative of the Integration WG can serve as a good base for a fruitful cooperation between Western, Central and Eastern Europe.

According to this intention we are planning to organize the “Integration and Innovations in Dentistry” on 14-17th of November 2012.

In the frames of this event will be:

- 1) Dental Exhibition of Innovation technologies;
- 2) Master-Classes, Scientific Conference, Training Seminars;
- 3) Meeting of ERO WG Integration;
- 4) Round Table of the Presidents of Eastern European Dental Associations

“Integration and Innovations in Dentistry” in Moscow could be annual event with the meeting of ERO WG Integration and the Presidents of Eastern European dental associations. By bringing all the Presidents of the Eastern European Countries around the table, we establish a good feed-back with CIS countries that is equally important to get responses on the ERO requests, to have their commitment to work together, to assess and compare the situation of oral healthcare in each national countries, to find out common problems and to solve them trying to get the best from each country in the framework for exchange between ERO Western, Central and Eastern countries, to solve dental professional problems due to politics improving quality and standards of oral healthcare.

Gostiny Dvor (MosExpoDental) in Moscow suggested his space for ERO WG Integration project for Continuing Education and knowledge transfer provided by NDAs and will cover the expenses for the trips of the Presidents of Eastern European countries. This event can be a good promotion of ERO in Russia and CIS countries.

Later on is planning to contact with the national Ministries of Healthcare to support ERO WG Integration activity.

Dear friends!

We are starting **an** Integration activity **for** Continuing Education **provided** by NDAs. This issue is **among** the most common and actual **topic** for all countries especially for Eastern European countries (Russia and CIS) due to a big differences in the systems of Prevention, Education and Dental Practice in each **of the** ERO countries. Recently we had a very efficient meeting **on** the 7th of October in Antalya with the Presidents of Dental Associations of Eastern European countries and FDI representative Prof. Nermin Yamalik. The purpose of the Round Table was establishing a good relations with the Presidents and assessment of dental situation in these countries. One of the most actual topic for Eastern Europe is **the** information dearth ?? in new dental technologies and **innovative** knowledge. We **intend to** improve and enhance their knowledge to bring dental Hi-Tech with Master-Classes, Scientific Conferences, Training Seminars, Workshops, using the opportunity of MosExpoDental to bring the Presidents of Dental Associations of Eastern European countries all together on the Round Table and also members of the ERO WG Integration. This **initiative can serve as** a good link between Western, Central and Eastern Europe and Integration activity.

According **to this intention** we are planning to organize **this event** in the centre of Moscow the "Integration and Innovations in Dentistry, 13th-15th of June 2012.

In the frames of this **event** will be:

- 1) Dental Exhibition of Innovation technologies;
- 2) Master-Classes, Scientific Conference, Training Seminars;
- 3) Meeting of ERO WG Integration;
- 4) Round Table of the Presidents of Eastern European Dental Associations **where we will discuss** the Reports of the Presidents **regarding the** current situation of dental care in their countries, **and the possibility** for applying **the** EU Manual of Dental Practice in Poland as example for Russia and CIS.

During "Integration and Innovations in Dentistry" **we can ??** solve the items of Certification for Innovation technologies in Russia and CIS and **have** meetings with leading trade Russian and CIS representatives.

In enclosed files please find the plan of the **venue** for this Integration program.

Looking forward **to hearing** from you,
Sincerely Yours,
Elena P. Ivanova
Chair of the ERO WG Integration
